Since the trading update on 21 November 2014, the Group has continued to scale the business and has secured several new international clients. These recent additions include a major Tokyo Stock Exchange listed Japanese pharmaceutical company, a multi-national Finnish technology company and an Israeli bio-technology company. “As we begin 2015, Tekcapital is continuing to scale its business internationally. While these new clients are in different sectors and geographies they have engaged Tekcapital for the same reason - to gain immediate access to peer reviewed, university developed technology acquisition opportunities spanning 160 countries.

“Tekcapital's client base now includes some of the world's most renowned companies and this demonstrates the strength of our proposition and the demand for it. We are currently in contract negotiations with a number of companies in the US, Europe and Asia which we expect to have a significant impact on total client numbers, a key growth metric for the Company, in future reporting periods.”
